

DOLPHIN TECH

TECHNICAL DIVING COMPONENT

CAM TANK BAND (Item no.: BP-2/IST)

THANK YOU for choosing Dolphin Tech technical diving BCD component. Only materials best suited to diving conditions were used to make this vital piece of equipment and it was designed and made according to the highest standard in diving equipment manufacturing so you can have reliable service from it for years to come.

GENERAL WARNINGS AND CAUTIONS

Please read and thoroughly understand the content of this owner's manual in its entirety. If there is anything not clear on how this product functions, for your safety sake, do not use it and please contact an authorised IST dealer for assistance.

Do not modify any component on this product as it will render the warranty void and it may not function properly and safely.

Improper use or intentional misuse of this product may cause serious injury or death.

Prior to each dive, make sure your single tank adapter and tank straps are properly and securely attached to your harness and tank. Inspect for any irregularity or wear and tear at the same time and if in doubt, please contact your nearest IST authorised dealer for assistance.

Repair, maintenance task and any disassembly must only be performed by an IST authorised dealer. Unauthorised service will render the warranty void and may cause this product to malfunction.

PRODUCT DESCRIPTION AND USER INSTRUCTION

The cam tank band is used in conjunction with Dolphin Tech single tank adaptor (available separately from your IST authorised dealer). It is tried and tested and very easy to use with its specially designed shape.

- 1) To use the cam tank bands, the single tank adaptor must firstly be assembled to your back plate.

- 2) Open up the tank cam bands and remove the rubber pad.

Attaching your single tank BCD to a scuba tank

- 1) Always check the tank bands' threading before attaching your BCD to a scuba cylinder. If possible, wet the bands first as the nylon webbing stretches a little in this condition.
- 2) Make sure the metal ring is as close to the single tank adaptor as possible. This will provide the greatest range of adjustment.
- 3) Open the tank band buckles and undo the last step of the threading procedure.
- 4) Hold the BCD up right and put the tank bands over the cylinder.

3) Using the rubber pad to its best anti-scratch property, thread the cam band's Velcro end through the one of the pad's openings, then both of the single tank adaptor's slots and finally, through the vacant opening in the rubber pad.

- 4) Repeat step 2 & 3 with another cam tank band to the other end of the single tank adaptor.
- 5) Thread each band's webbing through its cam buckle in the following sequence:

Pic. 1.

Pic. 2.

Pic. 3.

Pic. 4.

- 5) Pull the bands tight (one at a time) and half-close the buckle until it can stand up against the tank on its own. The webbing should be able to tightly hold the BCD to the cylinder.

- 6) Finish threading (as Pic. 4. on page 3) then close the buckle. Use Velcro to hold the loose webbing down.

The ideal height of the tank is at where you can reach back and turn the tank valve on and off (if necessary during a dive emergency) but not too high so you run the risk of the tank valve hitting the back of your head when entering the water or bending your head backward.

MAINTENANCE AND STORAGE

Use of non-factory parts or any modification may irreparably damage this BCD component and will not only render the warranty void but can potentially make your dives unsafe. **ONLY** replace worn or damaged items with genuine Dolphin Tech parts.

- Do not put or drag this BCD component across rough and / or sharp surfaces.
- Do not place any sharp and / or heavy object on any part of this component.
- Do not expose this BCD component to the sun while not diving.
- Immediately after a dive, rinse this component with fresh water as soon as possible. Air dry (in the shade) **completely** before putting your BCD and back plate pouch away.
- Store in a cool, shaded place.

WARRANTY

Any modification to this component will render the warranty void and may irreparably damage it and can lead to unsafe diving.

The warranty of this technical BCD component is valid to the original owner only (with proof of purchase) AND it covers any defects in materials and / or workmanship for the period of 2 years from the date of purchase. Proper maintenance as prescribed in this manual is required to uphold the warranty during the valid coverage. Any wear and tear under normal usage, as well as any commercial / rental usage, are not covered by this warranty. The following action will also void the warranty: any incorrect use or misuse – intentional or unintentional or any modification of this BCD part.

If a problem has developed with this product, please contact your nearest IST authorised dealer or IST distributor for return authorisation. Please properly package this product and send with your proof of purchase and postage prepaid. We reserve the right to service any non-authorised returns.
