Great Bay Adventures

It's no wonder Port Phillip is one of Victoria's most popular recreational destinations. Whether it's fishing, boating, swimming, snorkelling, or even windsurfing, there's something for everyone out on the water.

**Experience the new Grandnoff Wreck**

The Grandnoff Wreck is an excellent diving site located on the eastern side of Port Phillip, midway between Williamstown and Point Lonsdale. It is a freighter that sank in 1965 due to an explosion. The wreck is now a popular diving site and is home to a variety of marine life.

**Boating Safety Checklist**

To ensure you have the best possible boating experience, here are some important things to do before you head out:

- **Check the weather and tide charts** to plan your trip.
- **Inspect your vessel** to ensure it's in good condition and properly equipped.
- **Wear appropriate clothing** and personal flotation devices (PFDs).
- **Plan your route** and familiarise yourself with the area.
- **Communicate with other vessels** using proper radio and visual signals.
- **Be aware of marine animals and plants** and avoid damaging them.
- **Follow all boating regulations** and respect the environment.

**To be sure**

- **Vessel lights** should be on when on the water at night.
- **Communicate with other vessels** using hand signals when they are too far apart to hear the radio.
- **Know the local marine animals and plants** and avoid damaging them.

**Look after the bay**

- **Watch out for marine animals** such as dolphins, seals, and sea lions.
- **Avoid disturbing them** to ensure their safety.
- **Follow all boating regulations** to protect the marine environment.

**Boating and Winter Weather**

- **Stay alert and vigilant** during winter conditions, as ice and snow can make the water more hazardous.
- **Prepare for the unexpected** by carrying a first aid kit, extra fuel, and emergency supplies.
- **Check the weather forecast** before heading out to avoid getting caught in a storm.
